

Dear FCC,

I think that the Sinclair Broadcast station's use of our public airwaves to attack a presidential candidate under the guise of news is wrong, sends the message that our democracy can be controlled via print, radio or television. It's clear that they support President Bush and are using their power to force all their stations to air this broadcast.

If you decide to go ahead with this then please let the Kerry group air their own rebuttal right after.

I feel that this action by the Sinclair group isn't good for America and I'm against it.

Please use your power to keep our elections legal and above control.

Thank You,

Michelle Buchman
